Child Care Center Integrated Pest Management Plan

When completed, this template meets the Healthy Schools Act requirement for an integrated pest management (IPM) plan. An IPM plan is required if a child care center uses pesticides.

IPM statement

It is the goal of Children's Campus at SF State to implement IPM by focusing on long-term prevention or suppression of pests through accurate pest identification, by frequent monitoring for pest presence, by applying appropriate action levels, and by making the habitat less conducive to pests using sanitation and mechanical and physical controls. Pesticides that are effective will be used in a manner that minimizes risks to people, property, and the environment, and only after other options have been shown ineffective.

Our pest management objectives are to: (Example: Focus on long-term pest prevention)
Focus on long term pest prevention through practice of good sanitation and regular maintenance in order to create an environment that is not conducive to pest establishment, growth or reproduction.

IPM team

In addition to the IPM Coordinator, other individuals who are involved in purchasing, making IPM decisions, applying pesticides, and complying with the Healthy Schools Act requirements, include:

<table>
<thead>
<tr>
<th>Name and/or Title</th>
<th>Role in IPM program</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rosie Schoen - Office Coordinator</td>
<td>IPM Coordinator</td>
</tr>
<tr>
<td>Anna Tobin-Wallis - Director</td>
<td>Making IPM decisions</td>
</tr>
</tbody>
</table>

Pest management contracting

✅ Pest management services are contracted to a licensed pest control business.
  Pest Control Business name(s): A-Pro Pest Management

✅ Prior to entering into a contract, the child care center has confirmed that the pest control business understands the training requirement and other requirements of the Healthy Schools Act.
Pest identification, monitoring and inspection

Pest Identification is done by: San Francisco State University staff

Monitoring and inspecting for pests and conditions that lead to pest problems are done regularly by San Francisco State University staff and results are communicated to the IPM Coordinator.

Specific information about monitoring and inspecting for pests, such as locations, times, or techniques include: Sticky monitoring boards are placed in the kitchen and are checked weekly by custodial staff.

Contrac boxes are placed in the preschool, toddler and infant yards and are checked by San Francisco State University staff Pest Control on a weekly basis, or as determined necessary.

Pests and non-chemical management practices

This child care center has identified the following pests and routinely uses the following non-chemical practices to prevent pests from reaching the action level:

<table>
<thead>
<tr>
<th>Pest</th>
<th>Remove food</th>
<th>Fix leaks</th>
<th>Seal cracks</th>
<th>Install barriers</th>
<th>Physical removal</th>
<th>Traps</th>
<th>Manage irrigation</th>

Chemical pest management practices

If non-chemical methods are ineffective, the child care center will consider pesticides only after careful monitoring indicates that they are needed according to pre-established action levels and will use pesticides that pose the least possible hazard and are effective in a manner that minimizes risks to people, property and the environment.

This child care center expects the following pesticides (pesticide products and active ingredients) to be applied during the year. (This list includes pesticides that will be applied by child care center staff or licensed pest control businesses.):

Turf Supreme 16-6-8

Gopher Getter Type 2 Bait

Healthy Schools Act

✓ This child care center complies with the notification, posting, recordkeeping, and all other requirements of the Healthy Schools Act. (Education Code Sections 17608 – 17613, 48960.3; Food & Agricultural Code Sections 13180 – 13188)
Training
Every year child care center employees who make pesticide applications receive the following training prior to pesticide use:
✓ Pesticide specific safety training (Title 3 California Code of Regulations 6724)
✓ School IPM training course approved by the Department of Pesticide Regulation (Education Code Section 16714; Food & Agricultural Code Section 13186.5).

Submittal of pesticide use reports
✓ Reports of all pesticides applied by center staff during the calendar year, except pesticides exempt from HSA recordkeeping, are submitted to the Department of Pesticide Regulation at least annually, by January 30 of the following year, using the form provided at www.cdpr.ca.gov/schoolipm. (Education Code Section 16711)

Notification
This child care center has made this IPM plan publicly available by the following methods (check at least one):
✓ This IPM plan can be found online at the following web address: http://childrenscampus.sfsu.edu/programinfo
☐ This IPM plan is sent out to all parents, guardians and staff annually.

Review
✓ This IPM plan will be reviewed (and revised, if needed) at least annually to ensure that the information provided is still true and correct.
Date of next review: 12/3/2018

I acknowledge that I have reviewed this child care center’s IPM Plan and it is true and correct.
Signature: ___________________________ Date: 2/15/2018

1 These pesticides are exempt from all Healthy Schools Act requirements, except the training requirement: 1) products used in self-contained baits or traps, 2) gels or pastes used as crack and crevice treatments, 3) antimicrobials, and 4) pesticides exempt from U.S. EPA registration. (Education Code Section 17610.5)
